

 <b>AMICUS</b>	AMICUS		
	Start	Expert	Prime
adjustable height of the throwing head;	x	x	x
all function can be adjusted from the control box	x	x	x
serving balls of any arc, strenght, twist and frequency;	x	x	x
adjusting position combinations across the width of the table:( for example: 1 forehand, backhand, 2 middle, stb.,and their constant repetition)	x	x	x
set random position; Scatter (scatter) and Place RND function	x	x	x
wired connection of the control boxes to the robot	x	x	
Control via Bluetooth connection using the tablet or mobile phone (downloadable application)			x
a compact collecting net for collecting balls integrated with the robot, with automatic ball return	x	x	x
automatic clearance of the ball jam	x	x	x
microprocessor control and electronic protection of the throwing and feeding m	x	x	x
ball-side spin adjustable from the control panel	x	x	x
serving balls of any spin and length to different locations	x	x	x
min. 5 backspin balls and 7 spin grade	x	x	x
egy labdameneten belül minimum 7 különböző típusú - backspin, topspin, trajectory and speed - serving ball alternately by program or random		x	x
10 different types within a ball session -backspin, topspin, trajectory and speed -serving ball alternately by program or random			x
storing configured programs in memory (99 memory space)		x	
storing configured programs in memory ("infinite" memory space);			x
play exercise sequences (sequence)			x
factory exercises (with video)		x	(x)
cycle function		x	x
organ ball thread function (the ball session is repeated with 2 seconds pauses)			x
AFC (automatic frequency change);		x	
IFC (unique frequency change);			x
radio remote switch	optional	x	x
